Walks and Hikes

Hiking is a fantastic way of exploring this territory !

In the heart of Manche, a stone's throw from Calvados, our diversity of landscapes and abundance of natural spaces really do offer a condensed version of Normandy, throughout the seasons.

From woodland to marsh, from the Vire valley to the forests, there are plenty of itineraries to explore Saint-Lô Agglo.

Whether you prefer walking, horseriding, cycling, canoeing or any other means, there is always a path worth

exploring here, to enjoy at your own pace.

Green lanes

Reinvigorate yourself along the old tow-path on foot, horseback or bicycle. This green lane follows the meanders of the Vire and Vire-Taute Channel over a distance of 66 km.

Don?t forget to ask for the tow-path map from the Tourist Information Offices of Saint-Lô Agglo Tourism.
