## Markets

**Saint-Lô Agglo is a great destination to enjoy local produce and the specific flavours of the region!**

Our abundance of farm produce, the mild climate and the history of this land provide Normandy and the *department* of Manche with some culinary features that are not to be missed.

Whether you're an enthusiast, a gourmet, or just curious about food... come and fill up on local flavours at our different markets, or directly from local producers. If you like dairy products, you'll have a ball!
